President, Champlain Society, 1934-1936

Member of American Library Association, committee work on Public Documents

University of Toronto executive positions with Alumni Association and *University of Toronto Studies* series published by the Library (1897-1929).

Accomplishments:

Hugh Langton was a prolific and accomplished scholar, author, editor, and translator from a noteworthy Toronto family. He was particularly interested in the history of Canada and the University of Toronto. Langton managed the University main library through a difficult transition period after the disastrous fire of 1890. By the time of his retirement, hastened by ill-health in 1923, the facilities, collections, staffing and services at the main library had been re-established and strengthened on a firm foundation for his successors. Although Langton's library efforts and publications are seldom cited, his scholarly works are recognized as lasting contributions to Canadian history. Together with his friend, George R. Wrong, Langton edited and published an annual review of Canadian historical publications from 1898 to 1919 and their work led to the creation of the *Canadian Historical Review*. He was also active on the executive of the Champlain Society, eventually serving as President in 1934-1936. Langton's career is an classic example of the male scholar-administrator-librarian model that prevailed in the management of Canadian college and university libraries into the first half of the twentieth century.
