Associations/Committees:

Secretary-Treasurer, Alberta Library Association, 1941-1942

Councillor, Canadian Library Association, 1961-1964

Director, Association of College and Research Libraries, 1961-1964

Vice-President, International Federation for Documentation, 1965-1967

Honours:

1965 LL.D, University of Waterloo
1978 LL.D. McMaster University
1979 Canadian Association of Special Libraries and Information Services Award for Special Librarianship in Canada
1980 CLA Outstanding Service to Librarianship Award
1995 Centennial Medallion, International Federation for Documentation
1996 National Research Library renamed "J.E. Brown Building"

Accomplishments:

After graduating with a BLS at McGill University in 1939, Jack Brown received a Carnegie Fellowship to study at the University of Chicago Graduate Library School. From 1942-57, he worked at the New York Public Library where he built a reputation for promoting science and technology library services. In the mid-fifties, Jack did broadcasts over the New York station WNYC for the program "Speaking Volumes." After he returned to Canada in 1957, it was due in large part to his vision that the National Research Council Library achieved international recognition and achieved status as the National Science Library for Canada in 1966. In 1974, a modern building opened as the Canada Institute for Scientific and Technical Information on Montreal Road. It was renamed in his honour in 1996. Brown, who began his career as a public librarian in Edmonton, always stressed public service, collegiality, and teamwork. Robert Shanks, his executive assistant at CISTI, said Brown was a "man of great principle who was admired by all". Upon retiring in 1978, Jack Brown continued teaching at the McGill School of Library Science until 1983.
